SUMMARY

Full Stack Software Developer passionate about building high-growth products with user-focused design. Motivated team player concentrated on writing clean and efficient code using problem-solving skills. Eager to contribute my technical skills to an innovative team and continue to grow, learn, and improve as a developer.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Ruby, Python

Back-End: Node, Express, SQL, PostgreSQL, Prisma, Ruby on Rails, GraphQL

Front-End: React, React Native, Expo Go, HTML, CSS, SASS/SCSS, TailwindCSS, Bootstrap, jQuery, AJAX

Testing, Collaboration, and More: Mocha, Chai, Jest, Storybook, Cypress, Git, REST APIs, JSON

EXPERIENCE

Software Engineer at Kora - *Toronto ON*

June - Nov 2022

- Worked closely with fellow development team members and independently to design, develop, and deploy new features for the mobile app
- Developed frontend components and mobile screens using React Native and Expo Go to add new features and improve existing functionality
- Collaborated with other developers in systems design to create new functionality using microservices
- Maintained and reviewed internal documentation on project work including business requirements and outcomes
- Reported, documented and fixed bugs using ticketing system in a timely manner
- Participated in sprint meetings, daily standup meetings, and pull-request reviews

PROJECTS

Veggielicious

April 2022

- React recipe app featuring vegetarian & vegan recipes. Allows users to filter by cuisine and includes custom search. Created using JavaScript, React, CSS, and Styled Components.

PomoPets

February 2022

- React productivity app which integrates a Pomodoro Timer and an interactive digital pet. Created using JavaScript, Prisma, React, SASS, Bootstrap, Node, and Express. Deployed on Heroku and Netlify.

Scheduler

Nov – Dec 2021

- React SPA that features unit, integration, and E2E testing with Jest, Storybook, and Cypress. Includes custom hooks for integrated state management. Deployed on Heroku and Netlify and uses Circle CI.

Passwordb

October 2021

- Password manager that allows a user to generate secure passwords according to custom specifications. Built with JavaScript, Node.js, Express, HTML, CSS, SASS, jQuery, and PostgreSQL.

EDUCATION

Web Development Bootcamp, Lighthouse Labs

July 2021 – February 2022

- Full Stack Web Development bootcamp focused on JavaScript and Ruby, front-end & back-end development, networks and HTTP, relational databases, automated testing, and test-driven development.

Intro to Web Development Course, Lighthouse Labs

May 2021 – June 2021

- 6-week course that covered the essentials of web development: HTML, CSS, Ruby

Bachelor of Arts, McGill University - *Montreal QC*

Sept 2017 – June 2021

- Major in Psychology and double minor in Behavioral Science and Social Studies of Medicine
